HEAVY DUTY

YARDMASTER®
HORIZONTAL SUCTION
PUMP

- The Yardmaster Horizontal Suction Pump is an alternative where the vertical mount pumps are not a suitable solution
- · Using a simple bearing pedestal design direct coupled to an electric motor, these pumps operate a 4" suction inlet
- · With a high grade mechanical seal installed, the bearings are protected from your liquid
- Performance figures are equivalent to the standard Yardmaster pump range
- With a more industrial based market application, the Yardmaster Horizontal Suction Pump is available in stainless steel or standard cast iron
- Designed and manufactured in New Zealand for New Zealand conditions

### Ideal for...

Ideal in situations where the vertical mount pumps are not a suitable solution

The performance curves stated below are those for water. When slurries, manures and effluents are to be pumped, delivery, head and power will alter. For viscous liquid-solid combinations seek assistance from your agent or contact Reid & Harrison direct. Calculations can be made that will give details of the size of pump required for the task and specifications of performance.
